| Type of Comment | <input type="text" value="Comment"/> |
| Type | <input type="text"/> |
| Comments | <input type="text" value="A programme of archaeological mitigation was carried out at the site of Orchard Cottage within the wider Uplands Farm Site in 2016 (S/2015/2169/FUL). No sub-surface archaeological remains were identified and no finds predating the modern period were noted in the excavated spoil. In light of this recent evidence I am not minded to consider archaeological measures to be appropriate in respect of the present application. I therefore find no grounds to comment further on the proposed development."/> |
